# 1. Company Overview

## 1.1 Overall Rating

When analyzing the credit rating of the target company, comprehensively consider the target company's credit record, background and history, the company's scientific and technological innovation capabilities, corporate vitality and corporate operations Status, etc., the enterprise rating information presented is for user reference only. The meaning of credit rating is as follows:

| Grade | Grade Score Range | illustrate  |
|-------|-------------------|---|
| A     | 90-100            | Good operating conditions, strong organizational background, strong technological innovation capabilities, good development prospects, and no abnormal conditions such as dishonesty. |
| B     | 70-89             | The operation is good and the development trend is good. Various comprehensive strengths are developing steadily, and the credit record is good.                                      |
| C     | 60-69             | The state of the enterprise is at the industry average level, and the overall strength is average.  |
| D     | 40-59             | The state of the enterprise is lower than the industry average, the profitability is weak, and there is no good development trend.  |
| ---   | <40               | The business status of the company is very poor, and it has a bad credit record, so it is not suitable for exchanges.   |
| N     |                   | Insufficient information to rate.   |
